Information Technology

Malamulele, Giyani/Polokwane , South Africa Willing to relocate · +27791480645 / +2768 080 6131 · hlulanimadzivi@gmail.com · LinkedIn: linkedin.com/in/hlulanimadzivi

PROFILE

Motivated and detail-oriented Third-Year Information Technology student at Vaal University of Technology with a strong foundation in Systems Analysis, System Design, and Database Technologies. Proven leadership skills as Deputy Chairperson for Computer Science Class Representative. Proficient in full-stack web development (HTML, CSS, JavaScript), advanced database management (MySQL, PL/SQL, Oracle), and programming logic (VB.NET, Java). Seeking to leverage expertise in systems architecture, business process modeling, and data-driven solutions in a challenging IT role.

EXPERIENCE

Deputy Chairperson for Computer Science Class representatives - Vaal University of Technology, Vanderbijlpark ,Gauteng, South Africa

Jan 2026 - Dec 2026

- Spearhead communication between students and faculty, resolving academic queries and reducing response through a dedicated digital channel.
- Coordinate class meetings and represent student interests in departmental committees, ensuring attendance and active participation in curriculum feedback sessions.

Class Representative - Vaal University of Technology, Vanderbijlpark ,Gauteng, South Africa

Feb 2026 - Present

- Facilitated critical feedback loops for two high-stakes modules, directly influencing the adjustment of assignment deadlines for students.
- Organized peer study groups and technical workshops, resulting in a measurable improvement in class average performance for the semester.
- Liaised with lecturers to clarify complex requirements, ensuring 100% of students understood assessment criteria and project scopes.

PROJECTS

PROJECTS CyberShield - Student project, City, Country

2024 - Present

- -Smart Security Management System Project Portfolio: View Project Documentation VUT IT Academic Project (2026)
- • Scope: Formulated project management structures for an enterprise-grade SIEM solution designed for SecureFinance (Pty) Ltd.
- • Frameworks: Mapped out an integrated 6-module architecture handling SIEM Dashboards, ML Threat Detection, Automated Alerts, and Incident Response Playbooks.
- • Compliance Integration: Aligned project scopes with POPIA and ISO/IEC 27001 regulatory standards.
- • Planning: Designed the 12-week Critical Path, defining milestones from Project Initiation and System Design to QA Testing and final Deployment.

VUT_ACCOMADATION_PROJECT - Student project , City, Country

2024 - Present

- This project aims to improve student experience, reduce administrative workload, and support vision of a smart, inclusive, and technology-driven campus environment. By digitizing accommodation processes, the project bridges gaps between students and administration, ensuring smoother housing allocation and better resource utilization.

Bank App - Student interest , City, Country

2024 - Present

- This was part of my Information Technology coursework at Vaal University of Technology, where I specialize in Information Systems. The project helps me apply modules such as Business Analysis (SQL, PL/SQL, REA Diagrams), Web Development, and Data Management to a practical, real-world scenario.

EDUCATION

Diploma Information Technology (In Progress - 3rd Year) Vaal University of Technology | 2024 – 2026 - Vaal University of Technology, vanderbijpark , South Africa

Jan 2024 - Dec 2026. Information Technology

Bachelor National Senior Certificate - Shikundu High, Malamulele, South Africa

Jan 2018 - Dec 2022.

SKILLS

• Languages: Java · VB.Net · SQL · PL/SQL · Python · HTML · CSS · JAVASCRIPT • Databases: MySQL · Oracle SQL • Networking & Cloud: CCNA Foundations · Microsoft Azure • Methodologies: Systems Analysis & Design · REA Diagramming · WBS (Work Breakdown Structure) · Project Management • Web Tools: Frontend and Backend Web Development · GitHub Pages & GIT • Data Visualization & Analysis: Power BI, Tableau, Excel (Advanced)

LANGUAGES

- Xitsonga
- English

INTERESTS

- **Open Source Contribution:** "Contributing to open-source projects and exploring emerging AI frameworks."
- **Tech Problem Solving:** "Solving complex algorithmic challenges on platforms like HackerRank."
- **Emerging Tech:** "Following developments in Cloud Computing (Azure) and Cybersecurity trends."
